STANLEY®

Innovative Design Master Craftsmanship Trusted Brand

The Stanley SCA Media Filter produces crystal clear water using fine sand or recycled crushed glass media as the filter medium. Each filter incorporates an engineered multiport valve to direct the water flow and minimise the resistance through the filter, making the SCA Media Filter ideal for today's energy efficient high performance pumps.

Low resistance to water flow means less energy required by the pump and power savings to you. Simple and easy installation means lower installation and maintenance costs. High quality components such as the oil filled pressure gauge, corrosion free clamp band and valve connections, and fast draining of water and filter media for maintenance mean the SCA range is economical and easy to maintain and service for the life of the product.

Models

The SCA range is available in 3 models complete with 6 way multiport valve, pressure gauge and air release, barrel unions and backwash sight glass.

Warranty

Each filter is covered by a limited 10 year warranty on the tank and 12 month warranty on the valve and internals.

Capacity Table

Model	Tank Diameter	Filter Area	Port Size	6 Hour Turnover	8 Hour Turnover	Sand Required	Course Glass Media	Fine Glass Media
SCA280	650mm	0.30 Sq M	40 mm	100,800 ltrs	134,400 ltrs	120kg	3 Bags	5 Bags
SCA340	750mm	0.38 Sq M	50 mm	115,200 ltrs	153,600 ltrs	150kg	4 Bags	6 Bags
SCA400	820mm	0.46 Sq M	50 mm	144,000 ltrs	192,000 ltrs	200kg	5 Bags	7 Bags

Dimensions with valve installed

Model	Height	Shipping Weight
SCA280	106.0 cm	20kg
SCA340	107.6 cm	22kg
SCA400	123.3 cm	28kg
